

## **Facilities**

**Library-** There are about 3000+ books on Physics available in the college library.

### **Departmental Library:**

The library is a hoarded wealth of knowledge. It is an essential part of any educational system. Our Physics Department has its own library with around 125 books. It contains books with both Indian and International authors and publishers respectively. All the books are in well maintained condition. Both students and teachers have access to the library and can borrow the books. A register is maintained to keep record for issuing books. The library has books on following subjects:

- Analog and Digital Electronics
- Classical Mechanics
- Communication Systems
- Computational Skills
- Electricity and Magnetism
- Electromagnetism
- Instrumentation Skills
- Mathematical Physics
- Embedded system and Microcontroller
- Modern Physics
- Nuclear and Particle physics
- Numerical Analysis
- Programming skills
- Quantum Mechanics
- Solid state Physics
- Statistical Mechanics
- Waves and Optics

**Lab-** The Department of Physics has three air-conditioned Laboratories with a total capacity of nearly 50 laptops. The department has the facility of a printer, LAN, projectors and white boards. The department also has a dedicated lab staff for the proper functioning of the lab.
