

The Department of Chemistry has well equipped laboratories with required chemicals for conducting regular practical classes as well as research activities. The Green chemistry lab or the Instrumentation lab is equipped with instruments like UV-Visible Spectrophotometer, Conductivity meters, pH meters, Flame Photometers and colorimeters.

The main lab is equipped with two full-size fume hoods, bench space for water baths, centrifuge machines and digital balances. The departmental stockroom and a balance room are situated within the main chemistry lab.

Each student is assigned to her own locker which contains laboratory glassware to perform experiments.
